### - ABOUT NAHEP -

Government of India has taken an initiative to develop a holistic model to raise the standard of current agricultural education system. In order to provide more jobs and enhance the skills of agricultural graduates ICAR, New Delhi has supported through National Agricultural Higher Education Project. This NAHEP program focus on improving the quality of higher agricultural education and to encourage agricultural graduates towards entrepreneurship development so as to create self-employment. Capacity building and skill development in renewable energy is the program approved under NAHEP (ICAR), New Delhi. The aim of this programme is to utilize the renewable energy technology in agriculture through enhancing the skills of students and to support the institution to raise the standards of education in agriculture.

This Industry Institute Meet is going to provide the direct delivery of experience of industries typhoon to agricultural graduates for establishing themselves as a young entrepreneur.
